

To Earth Day Network

This is a letter of support for Earth Day Network at the launch of its campaigns, six months before Earth Day.

We are enthusiastic to join the Programs and Campaigns for the 50 th Anniversary of Earth Day Network which will happen simultaneously around the World, in order to make a decisive statement and advance in changing the world, towards a sustainable Planet for all living beings.

Educación Ambiental México, which is a network of Organizations dedicated to Environmental Education in México, believes that Education is a fundamental tool to change the new generations and prepare them to take actions and decisions in their daily life that will assure a sustainable Planet .

Educación Ambiental México, has achieved the inclusion of Environmental Education in the Mexican Constitution and is working to develop an environmental curricula in the Mexican school system in coordination with the Ministries of Education and Environment.

The Goal is to work in the formal education system as well as in practical activities which bring young people close to Nature and foster their understanding and love for life and the Biosphere.

Educación Ambiental Mexico, will participate as an official member of the mexican delegation to Cop 25 in Santiago de Chile and will hold a panel on this topic on the 6<sup>th</sup> of December.

We are honoured to announce that Kathleen Rogers, President of Earth Day Network will be joining us on the panel in order to join forces and spread this mandate to all other countries participating at COP 25.

We believe in Education for a Sustainable World!

Iñigo Orvañanos
